About me

My name is Gabriel de Menezes Nogueira, I'm 22 years old and I'm in the 2nd period of the Systems Analysis and Development course at IFPR (Federal Institute of Paraná).

I've been studying programming since I was 17, either on my own or at college. Today, my focus is to develop with love, always based on the instructions of the most experienced and in an agile and efficient way!

Languages

Portuguese/ native

English / intermediary

Experience

November 2022 - present

UniAstus

React native developer

I worked in the home office modality with a team of 5 people developing the UniAstus application. My work was all focused on React-native: I created the application design using Figma, I did all the screens, navigations, interactions, redux and sagas. Here I also learned concepts of agile methodologies, using Jira and Kanban.
